What is m3u URL for IPTV? When you want to use IPTV to watch TV shows on your computer, you continue to use certain data formats with the M3U. This information is used by your computer to view videos to identify certain bugs. What is M3U Data? M3U stands for MP3 URL. Can you get in trouble for using IPTV? IPTV is licensed for as long as it complies with and in accordance with applicable copyright laws. In that sense, asking if IPTV is legal is like asking if downloading information from the Internet is legal or not. The problem with questions like this is that it is too broad to admit the simple yes or no.
